May 2022 Newsletter

Wheels and Wings

May brings us to the end of another school year. Thank you for all your support throughout this school year. Your, providing supplies for our parties, reading to our friends, bringing recycled items from home, and sharing your special talents with our classes enriches our program. KidzStuff is a year-round program and does not close, we are transitioning to summer programming. All children can put away their uniforms beginning on June 6, 2022 until the 2022/2023 school year begins in September 2022.

We are looking forward to a fantastic summer of fun as we become **“Rainbow Explorers”** through arts & crafts, summer reading fun, field trips, math activities, science, and more. The summer is a great time to help our friends relax and review the many skills they’ve learned throughout the year. Try your best to keep them on a schedule, create an at home reading plan, and incorporate math and science in everyday activities to ensure they are ready to meet the next school year with a great foundation.

During the month of May our friends will investigate all things Wheels and Wings. They will explore with vehicles on wheels like cars, trucks, vans, and buses that take us to places we want to go. We will take an imaginary road trip, learn map skills, ride along on a fire truck, experiment with wheels, and much more.

May 2022
