Fall Fun...

Put on your hard hats-it's time to build! Along with the InvestiGator Club, your child is going to learn about all things construction, including construction vehicles and sites, homes, tools and household helpers, and carpentry.

Throughout this Investigation, your child will be learning math skills that relate to building, hearing construction stories, making building plans, and building with many different materials.

As the leaves begin to change color, and the cool winds start to blow, please remember to send your child(ren) with weather appropriate clothing, including rain boots and splash pants.

October will be a busy month please look at our activity calendar to keep up with all the exciting things we have going on.

These activities will teach our friends how to care for something living on a weekly basis. We are excited to share this experience with them!
