

KidzStuff November 2022 Newsletter

Healthy You

What a **MARVELOUS** October it was!!! Thank you for contributing to our classroom Harvest Parties, decorating your trunks for Truck-or-Treat, and donating pumpkins for our infants and toddlers to enjoy their onsite pumpkin patch. Your participation makes the KidzStuff Program great!

During the month of November, our Investigators will learn how the body works and how the choices he or she makes can keep his or her body healthy and strong. Your child(ren) will learn to name parts of the body and to use all five senses to gather information. They will practice healthy nutrition and exercise habits and find out how to care for themselves and to get help from health professionals. They will learn tips for staying safe at home and at school.

Try taking a walk around the block with our friends two or three days a week in the evening and adding more fruits and vegetables to dinner, all these small things will help reinforce what our friends are learning in school.

As it gets colder and colder outside, please remember we go outside daily. Don't forget to send hats, mittens, and warm coats with our friends **EVERYDAY!**

Bringing Greenery to KidzStuff ~

We are so grateful to the Kingsley family for bringing greenery to KidzStuff. All our flowerpots have been revived with new greenery, decorated bird houses, and worms our friends helped to bury. Our friends had so much fun touching the wiggly worms. We are looking forward to watching all our new green babies grow over the next year.
